SNP Series

Rectangular Foam Rubber Suction Cup

ROUGH SURFACE

Features

- ♦ Annular foam rubber
- ♦ Metal support plate
- ♦ NF(black) for Neoprene foam rubber, OF(orange) for Geranium foam rubber
- ♦ Available in various sizes

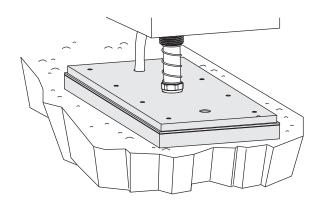

Advantages

- ♦ Long lifetime, good sealing and large suction force
- ♦ Large area support plate with light weight and high load
- ♦ NF and OF material optional for different working conditions
- Suitable for workpieces of various sizes and shapes

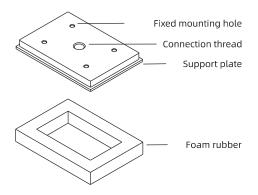

Applications

- ♦ Handling of workpieces with very rough or uneven surface such as buckle plate, embossed plate, marble, tile, cement board and grid metal plate
- ♦ NF for workpieces with rough surface and outdoor use.Good weather and ozone resistance, but poor in yield elasticity and storage stability, not suitable for food industry
- ♦ OF for workpieces with very rough surface. Good yield elasticity, wear resistance, tear resistance, high cut resistance and good ductility, but poor in oil resistance, heat resistance and aging resistance, not suitable for food industry
- ♦ Pay attention to the use of water and oil environment
- ♦ It is recommended to use large flow vacuum generator
- ♦ For the use of the sponge suction cup, please refer to General Precautions on Page 24

Structure

♦ Consisting of metal support plate and foam rubber. Foam rubber is with gum, which can stick to the support plate directly. Foam rubber is comsumable, which can be ordered separately for replacement

How to order

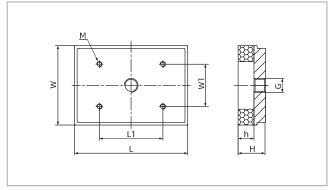

SNP 50×135 NF - G2F

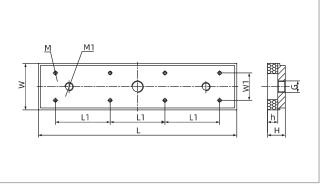

| ① Series | ② Size | ③ Material | ④ Connection thread |
|----------|---------|---------------------------|--------------------------|
| SNP | 50×135 | NF - Neoprene foam rubber | Nil - Foam rubber only |
| | 60×135 | OF - Geranium foam rubber | G2F - G1/4 female thread |
| | 75×107 | | G3F - G3/8 female thread |
| | 68×290 | | G4F - G1/2 female thread |
| | 140×290 | | |

Selection

| Model | Connection thread | MPO | | |

[♦] Note: 1. Testing vacuum level -60kPa, workpiece with smooth and clean surface. The data of pull-out force as above are figured out without considering safety factor. The data may be different according to different workpiece surfaces. Recommend the length of vacuum hose to be as short as possible, max 2m.

2. The dimensional tolerance conforms to GBT 3672.1-2002-1 M3 rubber product dimensional tolerance standard
